A PARKER SYSTEMS SOFTWARE

**DOKI.PH
CLINIC SYSTEM**

A modern, intuitive alternative to all your clinic office operations; so you can focus on what matters most: service.

THE SOFTWARE

Doki.ph is a modern and intuitive clinic management software created with a mission to help medical practitioners administer the best possible care to their clients.

As the ever-present demand for healthcare grows each year, the need for modern solutions in clinics, hospitals, and practitioner offices grows in tandem; which is why Doki.ph strives to tick all the operation boxes in your clinic so you can focus on what matters most: service.

Enjoy customized and frictionless medical software solutions for easy and streamlined patient records, appointment set-up, prescription details and printing, secure medical recording and so much more with Doki.ph, an optimal system for optimal patient care.

Hassle Free. Get rid of your old EXCEL and local management system: go online and save time & money!

OUR MISSION

Optimization.

Clinic paperwork made easy.

Gone are the days of manual appointment booking, scheduling, and even prescription administration!

Accessibility.

Better accessibility for your clients and staff.

Clients can book appointments anytime and anywhere in the Philippines, and when they do, your staff can cater to them anytime and anywhere in the Philippines, too!

Modernity.

Keep up with the races of the digital age.

No one wants to get left behind. Enjoy the benefits of digitization without the hardships of a steep learning curve with our beautiful systems and dedicated support staff.
